9. Revegetation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Purpose of Inspection:

The purpose of the inspection was for the Division to meet with the Permittee to discuss the overhangs.

Directions to Site:

The site is located east of Leamington, Utah on the south bank of the Sevier River. Approximately 2.3 miles northeast of the cement plant, 39° 35' 08.66" N 112°09' 54.96"

Inspection Summary:

The Division's personnel met with Craig Dansie about the Soma Quarry and overhang. The Permittee blasted the top bench on September 21, 2010. The Permittee plans to bring in a trackhoe that will be used to knock down the overhanging rocks within the next few weeks. The Permittee has removed most of the overhangs from the site.

Conclusions and Recommendations:

Inspection Date September 22, 2010

Page 2 of 3

S/023/0065

The Permittee has shown a willingness to work with the Division to eliminate the overhangs and rock fall problems. The Division should conduct a follow up inspection to see if the Permittee knocks down the overhangs and rock fall problems within the next month.

Inspector's Signature

A handwritten signature in blue ink, appearing to read "Jerry Mansfield", is written over a horizontal line.
